

Project Proposal

CSE-435: Final Year Project.

CSE-436: Final Year Project.

Nayeem Solmani Chaudhury (151-115-032)

Project Title: Sylhet Tourism Information.

Introduction: Each and every expanse of Bangladesh abounds in greenery, but none can compare with Sylhet. Sylhet is about 250 kilometers northeast of the capital Dhaka and the most northeastern division in Bangladesh. Traveller in Bangladesh are increasing, and Sylhet is very attractive for visitor. If a traveller want to visit Sylhet, He have to know proper information about this city. Without proper information traveller may face many problem. Therefore, I will developing a website where I will try to give true information about Sylhet tourism places.

Objective: Sylhet Tourism Information is a platform to inspire people to explore greater Sylhet. The main objective of my project is to develop a website which provides to the travellers true information of Sylhet tourist places. **Like:-** How to visit this place with cheap price, how about the security, and is there have any Hotel, Restaurant or Camping, and how is the Road situation. When we talk about its objectives so basically its objectives are for fulfilling its needs.

Features Description:

- I. Anyone can visit this website.
- II. Admin Login system.
- III. Admin pannel (Admin will be there to manage the website).
- IV. Full details of places including cheap travel cost, images of places, security of place will be added.
- V. User visit website as a guest.
- VI. Anyone can search about places.
- VII. Only admin can add and remove post.

Tools & Resources:

- HTML (Hyper Text Markup Language).
- CSS (Cascading Style Sheets).
- Bootstrap.
- Laravel (Framework).
- MySQL (Database).

Challenges: The biggest challenge that we envision in developing this project will be coming up with a good website including user friendly interface. To develop a website with those features described above and to give them a real structure will be the main challenges.
